# steripharm

Established in May 1993, Steripharm Limited is a leading medical manufacturing company in the Middle East. We manufacture and supply a wide range of sterile surgical packs, gowns and medical disposables, from our offices in the Middle East, Europe and through selected distributors world wide. Our facilities are ISO 9001 and ISO 13485 certified and products are CE marked

At Steripharm:

- We are Committed to Excellence in:
  - Quality
  - Customer Care
  - Technical Expertise
  - Effective Cost Management in Materials and Products
  - Education Support
- We strive to bring world class medical technology to the patients and health care providers by using a choice of quality synthetic fabrics, ensuring effective risk control, for our surgical gowns, drapes and packs.
- Our gowns and drapes are available in a wide range of sizes and shapes. Specific sterile packs and drapes can be customized to the individual end user requirements. In addition, medical consumable items and instruments can be added to the customized sets from the wide range of components.
- Salient features of the fabrics we offer are:
  - Smooth comfortable, lightweight, easy to handle and meet ergonomic requirements
  - Fluid repellent to: water, blood, alcohol and saline solutions
  - Effective risk control, providing a barrier to micro organisms
  - Antistatic features for safe use in surgical environment
  - Tear and puncture resistant
  - Long fibers construction reduces lint
  - Flame resistant

Catalogue is divided into core specialties with color codes for easy access.
